Personal and Support Care Services

This includes a range of services including personal care, respite Care, shopping, social support, medication assistance, meal preparation, respite, appointments and community access.

Care Management

Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. This includes all meetings to discuss the home care agreement and your care plan and to review this on an ongoing basis. It also includes co-ordination and scheduling of services, ensuring your care is aligned with other support, providing a point of contact for you and your family, ensuring that your services are personalised and ensuring the care you receive is delivered in a safe and respectful way at a time that suits you.

Package Management

This is the ongoing administration and organisational activities associated with the smooth delivery and management of your package. It includes preparing monthly statements, managing the package funds; along with compliance and quality assurance activities required for home care packages. It does not include costs which are unrelated to supporting your care.
